

Kenosha County Youth In Governance

WHY YOUTH IN GOVERNANCE?

Youth leadership development is critical in building civic capacity and long-term community sustainability in Kenosha County. Programs that teach useful skills and build the self-confidence of young people ensure capable, effective leaders for the next generation. In addition, recent national trends including an increase in youth civic service and new emphasis on civic education in schools indicate a growing need for leadership training to ensure young people are prepared to participate in political and civic life.

Data from a Kenosha County Search Institute survey in 2010 documented that only 25% of youth perceive that their community values youth and only 27% believe that youth are given useful roles in the community. These results were among the lowest of all the assets measured in the survey and were lower than similar assets measured at the national level.

Kenosha County and Kenosha County Government value the youth of our community. In response to the lack of leadership opportunities for Kenosha County youth, as reported in the 2010 Search Institute survey, the Kenosha County Board of Supervisors developed and continue to support the Youth In Governance program.

PURPOSE

The purpose of the Youth In Governance program is to create a model of youth empowerment within Kenosha County, through direct participation in local government. The overall goal is to bring the youth voice to community issues and concerns while fostering the development of confident, independent, and motivated youth leaders. Youth participating in Youth In Governance will be selected to sit on each of six Kenosha County Board committees and the one joint committee between Kenosha County and the City of Kenosha:
